

**Give your Special Event the Architectural Edge**

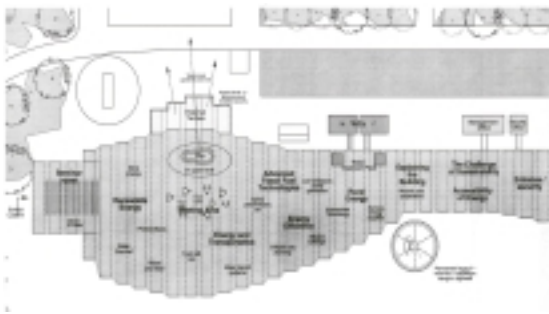

*7th on Sixth Fashion Shows NYC, NY*

A Form Architecture pc has a unique ability to bridge and intergrate the theatrical show world with the traditional construction professional services world. We design special events to the high standards set by the clients and local building officials.

We design the infrastructure of your event while coordinating the production design aspects to compliment and efficiently use the physical construction components. We also package tours and provide the required documentation to satisfy local government standards for each location.

Our knowledge of the available rental equipment compliments our ability to design and execute special structures to signature your event. Our services start with design with the executive producer and production designer. Our drawings and specifications allow the facility to be competitively bid, as a traditional construction project.

*UN Exhibition Hall, Sustainable Development International*

Our professional services further extent into understanding a specific venders inventory, coordinating to other specific inventories, while enhancing the Production Designers design intent.

Our staff provides on site installation observations and support to production team....we understand and design for the Special Event world.
