

Tavern on the Green Patio Dining and Canopy

Central Park, NYC

Tensile

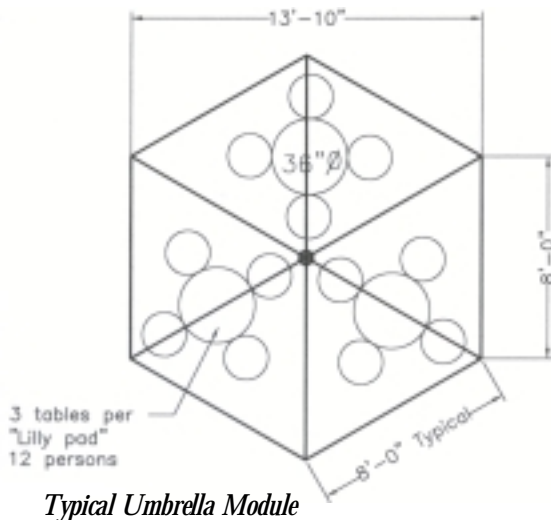

Existing Patio

Contacted by one of New York's most famous restaurants, A.Form architecture pc were retained as specialists in fabric design and engineering.

The restaurant wanted to utilize the large outdoor patio for events during the winter months, while also offering the traditional open patio during the summer months. We conceived fabric umbrellas to deal with the patio's complex geometry, easy removal for the summer season and complete enclosure for the winter season.

Typical Umbrella Module

"The ability to enclose our patio will serve as a vehicle to increase overall revenue in the off winter season"

Project: Tavern on the Green Patio Cover
 Location: New York City
 Owner: Tavern on the Green
 Details: Temporary patio enclosure for the winter.
